

HOW TO LIVE

SUSTAINABLY IN AUBURN

REUSE

Use products you can use again and again like a safety razor. Not only does it give a great shave, but it's cheaper on your wallet too. The average disposable razor can cost hundreds of dollars a year compared to cents spent for a safety razor!

REDUCE

The best way to avoid trash is to not make any! Don't buy products with excessive packaging, like individually wrapped proportions. The next time you're at your favorite Auburn grocer, buy whole stocks of produce and ask the butcher if they can put your meats in the container you brought with you. Also, try reducing your energy consumption. Every time you leave the room, turn off the light. Your energy bill will thank you!

RECYCLE

The recycling center is off of North Donahue and they take a variety of materials. They don't take plastic bags, but, no worries, many grocery stores will have designated bins for them. However, some things can't be recycled. So remember, when in doubt, throw it out!

Don't THROW AWAY THAT OLD SHIRT; REPURPOSE IT!

REPURPOSE

Cut it up to make cleaning rags or reusable grocery bags. There are lots of ways to extend the life of your belongings. But, if you don't want it anymore, donate it! Plato's Closet on Opelika Road will take your extra hangers!
